MASAR

(People Transportation Management system)

A People transportation management system (PTMS) is specialized software for planning, executing and optimizing the transportation of people.

Our people transport solutions cater to the daily pick-up and drop requirements of enterprises. The fully IT enabled solution offers in-house and customized solutions to every needs.

FEATURES

Absence Monitoring: An integrated system to record the absence of the passenger, whether through the guardian (through the application) or the bus driver. With the arrival of a notice to the responsible party in the event the passenger fails to ride the bus without a prior request in the absence.

Tracking: Record the coordinates of riding and disembarking passenger through the application, which helps in drawing the best proposed path to provide the time and distance of the trip.

Notifications: The ability to send notifications from the company's system administrator, to all person of contacts who are subscribers to the service who are participating in a particular bus.

Communications: Providing a unified channel for textual communication between companies and the system administrator in the company without the need to communicate over the phone, where a responsible party can sent notes through the application, it is centrally registered with the system administrator or the movement official and they can respond to them through the system directly.

Quality of Service: Companies' evaluation of the transportation service, and automatic collection of assessments for each bus to measure the companies' satisfaction with the transportation service.

APPLICATION PARTS

Driver Application:

- Registration of drivers wishing to obtain a transportation permit (the company's approval to provide the transportation service within a specified route).

- Registration of passengers participating in the company transportation service for the tour for the specific route of the bus.

- Documenting the boarding and boarding of the passengers at the beginning and end of the tour.

- Results of driver and bus assessments provided by service recipients are shown.

- The driver can send important notifications about the trip to the company service management and to the family.

- Evaluates passenger behavior during trips.

04 295 8180   +971 58 634 1613   info@appzzon.com   www.appzzon.com
